

## CYBERTECH AFRICA – KIGALI, RWANDA

PRESS RELEASE, July 25, 2023

*For more information or to schedule an interview with Amir Rapaport, contact  
Tanya Malhotra, tanya.m@cybertechconference.com*

### **Cybertech Africa: The Pan-African Event for Innovation and Networking**

*Cybertech arrives in Kigali, Rwanda, with goals of cooperation, networking, and advancement*

**On August 1-2, 2023, Cybertech is coming to the Kigali Convention Center in Kigali, Rwanda, in partnership with Rwanda’s National Cyber Security Authority, Rwanda Convention Bureau, and Smart Africa.**

The two-day event will gather business, innovation, tech, and cyber ecosystems, dozens of companies, start-ups, top-notch speakers, renowned universities, senior government officials, C-level executives, industry trailblazers, and leading decision-makers.

The topics most relevant to Africa will be covered, including, but not limited to, fintech, IoT (Internet of Things) and 5G, AI (Artificial Intelligence), critical infrastructure, aviation and space cybersecurity, smart cities, capability building, and sustainability – not to mention the continent’s first Africa CISO Summit. Telecommunication will be discussed in-depth with professionals during the VON: Evolution Africa event, as well as an exciting bankathon and hackathon within the exhibition area.

The embassy of Israel in Rwanda is hosting a special networking breakfast meeting (invite-only) in collaboration with Cybertech. An interactive discussion in collaboration with the World Economic Forum and the University of Berkeley and more special networking opportunities will be platforms for interesting discussions.

Cybertech Africa in Rwanda will include an exhibition of innovative cyber companies from various fields, increase exposure to international and pan-African markets, industry executives, and thought leaders, and encourage participation in a rapidly growing innovative ecosystem.

Cybertech strives to create a positive impact and bring unity and diversity to its cyber community. We endeavor to support the African continent's cyber and innovation ecosystem by focusing on this professional conference, special seminars and events, the unprecedented Africa CISO Summit, and much more.

**Paula Ingabire, Minister of ICT & Innovation in Rwanda:** *“On behalf of the Ministry of ICT of Rwanda and the Republic of Rwanda, we are delighted and excited to host this event, which will bring together leading experts, innovators, and stakeholders in cybersecurity. As we navigate an increasingly complex and challenging cyber landscape, these events are critical for driving innovation and advancing the industry.”*

National Cyber  
Security Authority

August 1-2, 2023

Kigali Convention Center, Rwanda

**Amir Rapaport, Cybertech Founder, and co-author of *Cyber Mania*:** *“Collaborating with the ecosystem in Africa is a priority for Cybertech. It is a new continent with rapid growth, a driven workforce, and, like us, it stands at the forefront of global cyber innovation. We are excited to work with the Rwandan government and finally arrive in Kigali.”*

Over the last decade, Cybertech Global has been the cyber industry’s leading networking platform, holding industry-related events around the globe, from Tel Aviv, Africa, Rome, and Tokyo, to Singapore, Panama, New York, and more. It brings international experience and exceptional field expertise to the presented audience.

Cybertech’s conferences and exhibitions are the go-to place to make business happen and learn about the latest technological innovations, challenges, and solutions to threats within the global cyber arena. But more than anything, Cybertech Global takes pride in creating a cyber community, encouraging innovation, and promoting inspiration within and throughout.

[Registration](#) for Cybertech Africa - Rwanda is now open.
